## Profile

I am a driven **Computer Science undergraduate** with a strong passion for **problem-solving**, **game development**, and **building impactful digital experiences**. Currently focused on deepening my knowledge of **Data Structures and Algorithms**, I apply my skills by developing projects in both **Web Development** and **Game Development** using **HTML, CSS, JavaScript, React**, and related tools.

My hands-on work is organized under my personal tech initiative, **Wits & Bytes**, where I explore creative ideas and bring them to life through interactive websites and simple browser-based games. These projects not only showcase my technical skills but also reflect my enthusiasm for user-centered design and engaging interfaces.

While I'm early in my academic journey, I actively participate in building real-world projects, and am always seeking new ways to learn and grow. I'm open to **internships**, **collaborative tech projects**, and any opportunity to contribute meaningfully while advancing my skills.

## Employment History

### CEO, Of Wits & Bytes

Jan 2025    📍 Chennai

I am a passionate and driven undergraduate student currently pursuing my B.Tech in Computer Science at **Amrita Vishwa Vidyapeetham**. Having just completed my **first year**, I've already embarked on a journey of hands-on learning and creation in the field of **Frontend Development** and **Game Development**.

I actively build interactive, user-centric web applications and games using **JavaScript** and **React**, showcasing a keen eye for design and functionality. All my projects are developed and released under my own creative tech initiative — **Wits & Bytes** — which acts as a personal brand and innovation space for my experiments and portfolio builds.

With a growing foundation in web technologies, a deep curiosity for visual storytelling through code, and the ambition to learn rapidly, I am continuously pushing the boundaries of what I can create as a developer.

## Education

### Amrita Vishwa Vidyapeetham, B.TECH CSE

Sep 2024 — Dec 2028    📍 Chennai

Still a UG Student With CGPA of 9.22 (as of 1st year)
